

A CALL TO ACTION

If readers are in any doubt as to how the multinationals were able to buy \$50 billion worth of Australia's assets and infrastructure from the Howard government, they should take the time to read "Expose - How the World Bank really operates" (next page) and get a copy of "THE BANKS" video (\$15 posted). This is the most important video you will ever get your hands on in your lifetime. Ring me on 07 4122 1412 or just email me at tonypitt@bigpond.com and I will send a copy.

How can Singapore, 640 sq/km area (smaller than Brisbane) afford to buy New Zealand and Australian airlines? Singapore has no oil, gas, coal, hydro, gold, silver, iron, aluminum, gems, agriculture, sheep, cattle, or even a continental shelf for fishing.

The international financiers bought Australia with FAIRY FLOSS money created by the FRACTIONAL RESERVE swindle and, if Joe Stiglitz is right, they did it by bribing our politicians with a promise of a 10% kickback for every dollar shaved off even the fire-sale price. Imagine the kick-back from selling Telstra.

You can do something to save Australia. Send this paper and the following letter to your state and federal politicians.
